Apartment Market Research

JACKSONVILLE APARTMENT MARKET UPDATE JANUARY 2018

The Jacksonville region absorbed more than 2,600 units in the past year allowing the average monthly rent to surpass the \$1,000 mark for the first time at \$1,003 per month and pushing vacancy rates down to 4.3%, a twenty year low.

Developers continue to target the region with more than 4,000 units under construction, the majority of which are concentrated in the Bay-meadows and Southeast submarkets.

“The Jacksonville vacancy rate is expected to remain in the 5% range through the coming eighteen months, despite the development pipeline. Rent growth is also expected to remain strong,” reports Kelly Reddecliff, multi-family analyst at Real Data.

Real Data publishes Apartment reports for numerous markets in the Carolinas, Tennessee, Virginia and Florida. These comprehensive reports solicit information from every conventional apartment community with at least 50 units.

These reports can be helpful in assisting you with preparing budgets, researching competition, creating presentations for owners and tracking the development pipeline in your area.

For more information about the apartment reports or other market studies provided by Real Data, please call Kelly Reddecliff at (704) 369-2345 x103.

Real Data - Apartment Market Statistics

SourceCD - Electronic PDF document (500+ pages) includes the Apartment Index Report's overall and submarket analysis in hard copy and electronic form. In addition, the Apartment SourceCD includes detailed community information with pictures, maps, historical rents and vacancies, floor plans, ownership, management, and sales info for each apartment community.

DataWizard - includes copies of the Apartment Index Report and SourceCD plus an interactive GIS mapping application and an excel file containing ownership, management, and five years of historical rents, vacancies, absorption, square footage and development information for each apartment community. Create customized graphs or export information into other software applications. In addition, there is a regional matrix comparing key statistics for all 15 markets covered by Real Data enabling subscribers to compare market conditions in different cities.
